

Sherman

STATINTL

The Director has referred your letter of August 9 to me for consideration and reply.

Since the staff of the Psychological Strategy Board is very largely rounded out, I cannot offer any encouragement of a position with us. However, I have referred your letter and personal data sheet to appropriate officials for consideration and you will receive a further communication which will advise you more definitely whether there is an opportunity for employment with the Government in the line of work in which you expressed an interest.

Sincerely yours,

A handwritten signature, likely of Charles E. Johnson, written in dark ink.
